The **Ontario College of Trades** (the College) regulates over 150 trades in Ontario. Twenty-two trades are classified as compulsory, and the rest are voluntary. Compulsory trades require membership in the College to practise or work legally in Ontario. Trades are organized into four sectors – construction, industrial, motive power, and service.

A **Hoisting Engineer – Mobile Crane Operator 1** maintains and operates conventional and hydraulically controlled mobile cranes that can lift, move, and position materials weighing more than 16,000 pounds. These large cranes are used to lift, move and position heavy materials such as concrete, steel, gravel, construction supplies and machinery. They can be found at construction and industrial sites, ports, factories, warehouses, dockyards or rail yards.

- **Classification:** Compulsory
- **National Occupational Classification:** 7371
- **Sector:** Construction
- **Red Seal Available:** Yes
- **Trade Code:** 339A

**What are the Certification Requirements?**

In order to be certified and work legally as a Hoisting Engineer – Mobile Crane Operator 1 in Ontario, you must:

- Hold a Certificate of Apprenticeship,
- Pass the Certificate of Qualification exam for this trade, and
- Register and pay membership fees to become a member of the College.

For more information on membership in the College, please use the contact information at the end of this fact sheet.

If you do not fulfill the certification requirements above, you have two options:

1. Complete an Ontario apprenticeship program by registering with the Ministry of Training, Colleges and Universities as an apprentice. In order to participate in an apprenticeship program, you must be a member of the College’s Apprentices Class. The apprenticeship program for Hoisting Engineer: Mobile Crane Operator 1 requires:
   - Minimum Grade 10 high school education or its equivalent,
   - 6,000 hours of apprenticeship training, including 480 hours of in-school training.

   Apprenticeships are paid workplace based training programs that also include classroom based components. Training requires an agreement between a person who wants to learn a skilled trade and an employer who is willing to train that person. For more information on apprenticeships in Ontario, please visit [http://www.tcu.gov.on.ca/eng/apprentices/](http://www.tcu.gov.on.ca/eng/apprentices/)

2. If you believe you have experience and qualifications in the trade that are equivalent to having completed the Ontario apprenticeship program, you may apply for a Trades Equivalency Assessment (TEA). This assessment will look at your previous training and work experience and determine whether you are qualified to write the Certificate of Qualification exam for this trade.

The Skilled Trades in Ontario: Information for Internationally Trained Individuals

Before you come to Ontario:

Below are tips you may find helpful in preparation for the assessment and certification process.

- Become familiar with your trade in Ontario by looking at the Apprenticeship Training and Curriculum Standards documents at: www.collegeoftrades.ca/trades/trades-in-ontario.

- Review the Ontario College of Trades’ membership structure at: http://www.collegeoftrades.ca/membership.

- If you believe you have experience or qualifications in the trade that are equivalent to an Ontario Certificate of Apprenticeship, you can request a Trade Equivalency Assessment to have your previous experience and qualifications assessed. To begin the assessment process, contact the College at: 655 Bay Street, Suite 600, Toronto, Ontario, Canada M5G 2K4, or by email at info@collegeoftrades.ca.

- Prepare any documents that describe your work and training in your trade. If they are not in English or French, you must bring a translation that is signed by a registered translator, either from your home country or Canada.

Once you arrive in Ontario:

1. Assessment of your previous training and experience - If you did not complete a Trade Equivalency Assessment prior to coming to Canada, contact the College at 1-855-299-0028, or by visiting the College at 655 Bay Street, Suite 600, Toronto, Ontario, to get started. You can also visit the College website for additional information.

2. Complete apprenticeship training, if required – If you do not have experience and qualifications equivalent to an Ontario Certificate of Apprenticeship, you must complete an Ontario Apprenticeship Program for your trade. Contact the Ministry of Training, Colleges and Universities at 1-800-387-5656 for more information on apprenticeship programs in Ontario.

3. Provisional Certificate of Qualification – If you have been found to have equivalent training and experience through the Trade Equivalency Assessment, you may request a Provisional Certificate of Qualification. This is a temporary certificate that will allow you to work legally in your trade for up to 90 days (with the possibility of extending for a further 90 days), while you prepare to write the Certificate of Qualification Exam.

4. Write the Certificate of Qualification Exam – This is a multiple choice exam.

If you have a physical, psychological, learning, or language barrier that may make it difficult to read or understand the questions on the exam, you can have a translator, interpreter, or a reader with you during the exam. You must request this assistance in advance.

5. Become a Member - For compulsory trades, membership in the College is mandatory. You will be contacted by the College via mail with your passed exam result and directed to contact the College to pay your membership fee.

Red Seal Trades Program – This program sets the inter-provincial standards for working in skilled trades across Canada. Through the program, certified trades people can obtain a Red Seal endorsement on their provincial certificates which will allow them to work in their trade throughout Canada. For more information, visit: www.red-seal.ca.
